YOU LIKE IT CLEAN?

WE LIKE IT DIRTY!

The Lineage: Being the progeny of a 38-year-old Manmachine Group, The Detailing Mafia is a high end car cleaning and detailing studio, with experience of decades and a portfolio of 200+ Studios Pan India, providing services with unmatched quality, reliability, durability and an attention to the details like no other. The Detailing Mafia is focussed and en route on creating platforms that herald the boom of the automotive detailing industry in the Indian market, creating endless opportunities and realize the true potential. We strive harder to bring the best services to form awe-inspiring results any car owner and enthusiasts can be proud of.

PEDIGREE

We are a 38 year old company and an ISO 9001:2008 compliant firm. Cleaning is our core business!

HIGHLY SKILLED STAFF

Our Staff is provided periodic training of new and improved ways to treat and protect vehicles and deliver best detailing results.

SPECIALIZED DETAILING

We use world class and imported detailing products on the surface of your vehicle, in tailor made systems specially designed to get the right look and protection for your beloved machine!

WORLD CLASS PRODUCTS

We Import in International standards of car detailing to the Indian automotive market. Products like #Labocosmetica and Clarity Coat help to deliver the highest standards of Detailing.

LARGE PORTFOLIO OF SERVICES

We boast the largest portfolio of vehicular detailing services which can be provided under a single roof. Be it Ceramic Coating, Denting Painting, Paint Protection Film, Peel-able paint and much more.

EXCLUSIVITY

Manmachine is a exclusive distributor in the sub-continent of all products used in "The Detailing Mafia" These products are approved by leading companies such as : Mahindra & Mahindra, TATA Motors, Renault, BMW, Jaguar, Land Rover & Honda to name a few.

DIGITAL MARKETING SUPPORT

Our digital team of experts provide complete support in setting up new social media campaigns, promoting it forward & capturing the targeted audience.

**OUR EXCLUSIVE BRANDS
FROM AROUND THE WORLD**

#Labocosmetica®

BENEFITS OF THE #Labocosmetica CERAMIC TREATMENTS

EXTREMELY PROTECTED SURFACES

EXTREME BRIGHTNESS

ANTI-ABRASION

MIRROR FINISHING

GUARANTEED DURATION: UPTO 7 YEARS

WATER REPELLENT BARRIER

SELF-CLEANING CAPABILITY

GOOD INVESTMENT

What is the 3ph system by #Labocosmetica?

The #3ph system by #Labocosmetica was designed to help the detailers and car wash owners during one of the key steps in car care, whether the car is protected or not, namely washing. When washing a car, thorough cleaning is essential. However, in order to remove the dirt and contaminants that have built up on the bodywork, it is often necessary to use a product with a specific pH.

HPC (1 Year - Nano Ceramic Coating)

GLOSS MATT PAINT HYBRID NANO CERAMIC COATING
#HPC paves the way to a whole new category of coatings dedicated to the overcoat. Thanks to its "nano hydro-gel system" technology, it creates a hydrophobic membrane with a polymeric matrix made up of "building blocks", which form lattices and adhere directly to the surface at room temperature, creating a highly resistant and elastic layer.

SAM

(2 Years or 30,000 Km)

A stand alone coating that can be easily applied as a single layer. Application of SAM ensures effective chemical and physical protection on any vehicle's bodywork. Once applied on the surface, it spontaneously forms a layer after chemical absorption. It forms a stable chemical bond catering best results in terms of durability and efficiency.

Graphene NGC+HPC/STC+HPC (5 Years or 75,000 Km)

This ultimate pack is composed of STC, which is a combination of 70% physical and 30% chemical coatings. It's self-cleaning ability provides highly reflective gloss to the vehicle's surface. NGC - Nano Graphene Coating which is all new Premium High Solid Graphene Coating which comes with 5 years of protection for your vehicle.

SAM+HPC

(3 Years or 50,000 Km)

SAM forms a stable chemical bond and obtains the best possible performance in terms of effectiveness and durability. For best possible results SAM is stratified and overlaid with HPC after at least 2 hours to achieve the highest possible level of perfection. The combination of this power pack coating leaves your car cleaner for longer.

BLINDO+HPC (7 Years or 100,000 Km)

Blindo is a new coating concept which creates a transparent and ultra-fine hydrophobic layer on the vehicle's surface. It has greater chemical stability and is more resistant to external contaminants. HPC is another coating which creates a hydrophobic layer with a polymeric matrix using nano hydro-gel system technology.
